

GRADING SYSTEM

A. General:

1. The final grade for each course shall be the total of Midterm and Final examination grades and In-Course assessment grades (including Lab activities).
2. The minimum passing grade is "D", and the failing grade is "F" and "FA" in each course.
3. Students shall be deemed to have earned the corresponding number of Credit Hours once they complete a course with a "D" or higher grade.
4. Students shall repeat a course if they are given a grade of "F" and "FA", and they shall complete the same course with a minimum grade of D so it can be counted in the total earned Credit Hours before they can use the Credit Hours towards Graduation Requirements.
5. Students shall check their Grade Point Averages on the Student Online Portal, and they can monitor their progress throughout their studies.

B. Grade Appeal:

1. Student shall have the right to submit a Grade Appeal Request Form, if he/she feels that there is an error, via the Student Online Portal within two working days of the announcement of the final grades for each course.
2. Grade Appeal Form shall only be applied by the student themselves.
3. Where the Grade Appeal is linked to a core course and relates to a failure result, the student shall not be allowed to register in the subsequent course(s).
4. Grade Appeal Request Form shall be allowed only after the announcement of the total Final Course Grade.
5. The Course Instructor may decide on one of the following outcomes after reviewing the students' exam paper(s):
 - a. *Increase the grade.*

b. *Keep the grade unchanged.*

c. *Decrease the grade.*

The above decision shall be approved by the Head of the Department and the Academic Dean. Such a decision will be final.

C. Grading system:

1. Passing grades shall be A, A-, B+, B, B-, C+, C, C-, D+, and D.
2. Student shall be given Credit Hours only once for any course passed at KCST and counting toward their Degree or in the calculation of their GPA.
3. Final grade of every course shall be computed out of 100 and rounded to the nearest highest integer which is then translated to its equivalent letter grade and grade point automatically as per the below table:

Letter Grade	Grade points	Start Grade	End Grade	Letter Grade Description
A	4.00	95	100	Outstanding. An "A" grade reflects outstanding performance in exams, assignments, and projects, as well as attendance and conduct
