Listening Comprehension

Test takers at this level are usually able to:

56

31

68

CEFR
Level
B2

When listening to a short dialogue

- integrate information across two utterances in order to understand an implied meaning
- understand the meaning of a variety of idioms and colloquial expressions (e.g., "It's probably for the best," "All I can say is . . .")

When listening to a short academic lecture or extended conversation

- understand a main idea or purpose that is explicitly stated or reinforced
- understand explicitly stated details that are reinforced or marked as important

Structure and Written Expression

Test takers at this level are usually able to:

45

31

68

CEFR
Level
B1

- use common tenses of verbs correctly, including passive forms
- use linking verbs with ease and use an expletive, such as "there is" in the absence of another main verb
- recognize when verbs require objects, such as infinitives, gerunds, or clauses beginning with "that"
- introduce a clause with very common words, such as "before" or "if"
- recognize the correct structure of a sentence or clause, even when its subject and verb are slightly separated

Reading Comprehension

Test takers at this level are usually able to:

To Whom It May Concern,

This is to acknowledge that Amal Alotaibi (student ID – 161113) was a student of mine for three courses I offered at Kuwait College of Science and Technology (KCST). This includes the CS203 data structures in the Spring semester of the academic year 2018-19. The other two courses were CE212 digital logic design and CS371 databases both of which she completed in Fall2019-20.

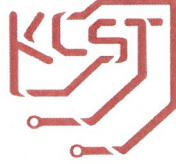

For further details, please reach out to me when needed.

Sincerely,

Omer

To Whom It May Concern

I am writing this recommendation letter for Amal Alotaibi, a graduate from Kuwait College of Science and Technology (KCST). During her time at our institution, Amal proved herself to be an excellent student, particularly excelling in computer engineering courses. With high performance across most subjects, Amal's academic record speaks about her capabilities and dedication.

Amal is a dedicated and well-mannered individual who consistently goes above and beyond in her academic pursuits. Her commitment to learning is evident in her willingness to explore engineering theoretical concepts and engage deeply with course material. She is highly regarded by both her peers and faculty members, demonstrating not only her academic capabilities but also her ability to collaborate effectively within a team.

Amal possesses a genuine passion for contributing to advancements in technology. Her enthusiasm for the field of computer engineering is outstanding, and she approaches challenges with a proactive and solution-oriented mindset. Whether in academic settings or professional environments, Amal has the potential to make significant contributions and excel in her chosen path.

Given her intellectual abilities, motivation, and exemplary character, I have no hesitation in recommending Amal Alotaibi for any academic or professional endeavor that values these qualities. I am confident that she will thrive in a graduate program and emerge as an asset to both academia and industry.

Please do not hesitate to contact me if you require any further information regarding Amal's qualifications or character.

Kind regards,

Dr. Ismaeel Al Ridhawi, *Ph.D, P.Eng, SMIEEE, MACM*

Recommendation Letter for Amal Alotaibi

To Whom It May Concern:

I am writing to you in support Amal Alotaibi. Please be informed that Amal Alotaibi graduated as a Computer Engineer from Kuwait College of Science and Technology (KCST). During her time as student in our department, Amal Alotaibi has done excellent performance in my class that obtained a "A" grade in "CE403: Minor Project" during the Spring 2019-2020. Amal Alotaibi demonstrated exceptional participation and proficiency by successfully completing the project in her project "Parent's Surveillance System Using Internet of Things (IoT)" Minor Project at KCST. Her commitment to enhancing her research skills is evident in her active participation and achievement in this rigorous educational program.

All things considered, Amal Alotaibi is undoubtedly a talented student with great potential. I do not doubt that she can qualify for your honourable program. If there is anything else I can do to support her application; Please don't hesitate to contact me if you require any further details.

Sincerely yours,

Dr Basil Alothman, Assistant Professor
